**Product Name :**  
CNC Plasma Cutting Machine

**Product Code :**  
SCHOOL-CAD890003

**Description :**

CNC Plasma Cutting Machine

**Technical Specification :**

The advanced mechanism designs ensure the high performance of the dynamic response. Reduce the finishing work- as the cutting error is very small, so can reduce the work piece reworking. Automatic height tracking system- Automatic level control systems with fast response characteristics have guaranteed the quality under the condition of high-speed. FEATURE: High Stability- the advanced mechanism designs ensure the high performance of the dynamic response. Reduce the finishing work- as the cutting error is very small, so can reduce the work piece reworking. Automatic height tracking system- Automatic level control systems with fast response characteristics have guaranteed the quality under the condition of high-speed cutting. Easy Installation and maintenance- Reasonable modular design is convenient for assembly and maintenance. SPECIFICATION: Automation Grade: Automatic Machine Type: CNC Cutting Machine Finishing: Powder Coated Max Cutting Length: 0-500 mm, 500-1000 mm Max Cutting Speed: 500-1000 mm/min Max Cutting Thickness: 15 mm Max Cutting Width: 500-1000 mm Accuracy:  $\pm 0.02$ mm Repeatability precision:  $\pm 0.02$ mm
